**YMPO TAC EX-OFFICIOS PRESENT**

FHWA	Romare Truly
------	--------------

**YMPO STAFF PRESENT**

Executive Director	Paul Ward
Senior Planning/Mobility Manager	Charles Gutierrez

1. **Call to Order and Declaration of Votes**

The YMPO Chair Joseph Grant, called the meeting to order. The City of Yuma declaration of votes: Jennifer Albers 2 votes, Susan Cowey 2 votes, and Jeff Kramer 1 vote.

2. **Title VI of the Civil Rights ACT of 1964 .....Discussion and Information**

A brief message was read out reminding members of our Title VI obligations. YMPO has on the TAC Website area the Sign-In Sheet and Survey Cards for the public to sign-in. Please send the these to Charles Gutierrez at [cgutierrez@ympo.org](mailto:cgutierrez@ympo.org).

3. **Call to the Public**

This item is to provide an opportunity for comments by the public. Individuals wishing to address the committee need not request permission in advance and are limited to three (3) minutes.

No comments were presented.

4. **Approval of Minutes ..... Discussion and Action**

The draft minutes of the November 12, 2020 Regular Meeting were provided for information, discussion, and approval.

Jennifer Albers motioned to approve the November 12, 2020 Regular Meeting minutes as presented by YMPO staff.

Frank Sanchez seconded.

Motion carried unanimously.

5. **YMPO New Office ..... Information Only**

Paul Ward gave a brief update regarding the new YMPO office located at 230 West Morrison Street in Yuma. The scope of work has been developed and contractors are being sought for the remodeling of the inside of the building. Tentatively the construction is scheduled for late December and moving in mid to late February. Paul Ward mentioned the current property management company has extended the lease by two months.

6. **Pavement Management System Study Update ..... Information and Discussion**

YMPO staff and Tim Miller, Kimley-Horn & Associates updated the TAC with the information in understanding how much an agency spends on preventive maintenance activities (crack sealing, seal coats, patching, etc) as well as major work (mill/overlay, full-depth reconstruction, etc). We are nearing completion of the Pavement Management System (PMS) Study.

We are trying to identify which PMS software applications may be appropriate for each agency, while also recognizing that a one-size-fits-all solution may not be appropriate. For example, the PMS system used by the City of Yuma may include additional features (work order management tracking, for example) that may not be needed by a smaller agency like San Luis. Our goal in gathering this information is to help each agency make an informed decision as it relates to updating and maintaining roadway inventory and condition data. If you are not interested in procuring and/or maintaining a PMS system, that's okay too – but it would be helpful for us to know.

The benefit of using a PMS software is that it allows an agency to develop a pavement inventory, input and update pavement conditions, and track completed maintenance and repair projects. This information can be leveraged to forecast pavement conditions and estimate work requirements in the future and develop roadway capital improvement programs. PMS applications also allow for the assessment of budget levels and their adequacy in maintaining or improving roadway conditions.

**7. Long-Range Transportation Plan Update ..... Information, Discussion, and/or Action**

Vamshi Yellisetty, Kittelson, informed the TAC that the Kittelson team has made significant progress with the Existing and Future Conditions Analysis task. The TransCAD Model Update is in progress. Vamshi Yellisetty shared that a vary good framework has been developed for the model. Finalizing the socioeconomic data and the network is in progress though the one-on-one meetings that the Kittelson team has been scheduling.

This item was reopened during item 14.

Frank Sanchez asked for an update regarding acquiring a consultant for the next HSIP application cycle. Vamshi Yellisetty answered saying eight applications will be produced using the ADOT data assets. Vamshi Yellisetty also mentioned if there is any specific refinement of ADOT crash data that needs to be done that would be out of the scope of work.

**8. Transportation Improvement Program (TIP) FY 2020 – 2024 .....Discussion Only**

In the approval of the STIP, FHWA found a possible Air Quality issue with the City of Yuma 16th St project. YMPO had to take the TIP to the Executive Board to remove the 16th St Project with the discussions with the city of Yuma. The issue was with the Air Quality Conformity being out of phase with this project. The project was in the RTP and modeled with the AQCA process; however, due to the RTP showing an opening date of this project as being 2021 and the request for the continuation of this project being in 2024/2024 the AQCA was out of date for this and would require a new conformity analysis on this phase of the project. The recommendation was to remove the project from the current FY 2020-2024 TIP and put it in the FY 2022-2026 TIP that is being created currently. The Executive Board in a Special Meeting in November approved the removal of the 16th Project from the TIP, so as the requested TIP Amendment #2 could be advanced with the Yuma County and all the 5310 and YCIPTA projects added/deleted/changed.

**9. Transportation Improvement Program (TIP) FY 2022-2026 ..... Information, Discussion, and/or Action**

Additional information will follow regarding the timeframe of when the mini DCR's are due to YMPO staff.

**10. YMPO TAC Schedule for the 2021 ..... Information, Discussion, and Action**

YMPO staff asked the TAC if they would like to keep the location of the TAC meetings at the Yuma County DDS building, have floating meetings at member agencies offices, or have all meetings at the YMPO office. A few TAC members expressed that having the future TAC meetings at the YMPO office would be convenient for the YMPO staff. YMPO

staff would not have to travel with equipment and would not have to set up before the meeting. This item was up for discussion and will be brought back next month for approval.

**11. YMPO and ADOT.....Information and Discussion**

YMPO and ADOT staff had the opportunity to update any other business that is or was not covered in the previous agenda items. This is a NO-ACTION agenda item.

- A. **Regional Priorities**- on-going.
- B. **Short-Range Transit Plan**- A draft initial report should be available next month.
- C. **Off-System Bridge**- opened last month.
- D. **Special Over-weight Truck POE II**- more information will be sent once it becomes available.
- E. **City of Yuma Traffic Operations Center (TOC)**- Jeff Kramer informed the TAC that the City of Yuma has undertaken an intelligent transportation systems masterplan and the first phase has been completed. Most of the member agencies have participated in this plan. The first phase was an inventory of all traffic signals and communication, including basic information about each agency's traffic signal related systems. Now in the second phase which includes a concept of operations for a traffic operations center and an infrastructure deployment plan. The City of Yuma is now looking at what it would take, as the City, to upgrade all the traffic signals. This would include connecting the traffic signals with communications, a combination of fiberoptic, wireless, radio, etc. All this would be managed from a central traffic operations center. The purpose of this TOC is to improve the efficiency of the traffic signal system and improve the efficiency of traffic flow. Jeff Kramer mentioned there is opportunities for the TOC to expand to more of a regional system where all the signals can be managed from one operations center. Including the member agencies to the TOC will require more discussions how it would be modeled, and agreements would need to be in place. In the second phase the City of Yuma will investigate pricing on how to run the TOC on a city basis and as a regional basis.

**12. In-Kind Match Forms .....Information only**

Charles Gutierrez reminded the TAC to complete and submit In-Kind Match sheets to YMPO staff. Extra In-Kind Match sheets can be found on the YMPO website under the TAC section. Charles Gutierrez reminded the TAC that all the LRTP meetings that have been held with member agencies count for In-Kind Match.

**13. TAC Status Reports.....Information and Discussion**

Member agencies had the opportunity to report the status of their projects (Local or Federal). A list of ongoing projects is shown in the information below.

**YMPO AGENDA ITEM #10**  
**Transportation Improvement Program**  
**FY 2020-2024 Amendment #3**

**DATE:** January 7, 2021

**SUBJECT:** Transportation Improvement Program FY 2020-2024 Amendment #3

**SUMMARY:**

In 2012, the City of San Luis used Cross Border Infrastructure (CBI) funding for the then Juan Sanchez Blvd. Currently the name has changed by the city to Cesar Chavez. The project appeared to have stalled and during this appeared time-lapse of movement of the project the city has been doing changes to help mitigate the efforts of the project. ADOT requested a status on the project to decide what was going to happen to the \$458,000 that remained for the project. In collaborative efforts of the ADOT SW District and San Luis a timeline of projects that have been occurring.

A spreadsheet with the progress as defined by ADOT and the city is presented. It shows past, requested current, and future progress with an anticipated time for each stage.

The request for FY 2021 is to expend the \$458,000 Cross Border infrastructure (CBI) funds in Right of way for 2021 and add the 10th Ave and 6th Ave projects to the TIP Below is a table of the request.

TIP ID	Fiscal Year	Project Name	Project Location	Federal	Local	Total
SAN-12-RW	2021 Right of Way	Juan Sanchez Blvd: US 95 to Ave E 1/2	US 95 East to SR 195	\$458,000 CBI		\$458,000
SAN-12-08	2021	Juan Sanchez Blvd: US 95 to Ave E 1/2	4th Ave Intersection Construction		\$900,000	\$900,000
SAN-12-09	2021	Juan Sanchez Blvd: US 95 to Ave E 1/2	10th Ave Intersection Construction		\$500,000	\$500,000
SAN-12-10	2022	Juan Sanchez Blvd: US 95 to Ave E 1/2	6th Ave Intersection Construction		\$400,000	\$400,000

There are other projects laid out in the spreadsheet, but in cooperation with the City of San Luis those projects will be introduced to the TIP in future years as funding availability is acquired.
