   E. YMPO Executive Board Meeting, October 27, Charles A. Gutierrez, Melissa Ramos, Maria Yousif, and Robert Aguilar attended
   F. Steering Group Meeting for Regional GIS Project, October 27, Charles A. Gutierrez and Brian Brady participated
   G. Asset Management Webinar, November 9, Charles A. Gutierrez Attended
   H. APS/Enrique Orozco, November 9, Charles A. Gutierrez and Paul Ward attended

XIV. ADJOURNMENT

Notice: In accordance with the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973, YMPO does not discriminate on the basis of disability in the admission of or access to, or treatment or employment in, its programs, activities, or services. For information regarding rights and provisions of the ADA or Section 504, or to request reasonable accommodations for participation in YMPO programs, activities, or services, contact Charles A. Gutierrez at 928-783-8911.
To: YMPO Technical Advisory Committee (TAC)
From: Charles A. Gutierrez, Senior Planning Manager
Date: November 8, 2016
Subject: Staff Report November 10, 2016 TAC Meeting

Item III. Introduction of the YMPO Executive Director

Charles A. Gutierrez, Senior Planning/Mobility Manager will introduce and welcome Paul Ward as the YMPO Executive Director.

Item IV. Regional GIS Imagery Project Presentation

The City of Yuma and Yuma County are spear-heading a GIS Imagery Project that will have a fly-over element and a other data available for regional wide imagery.

Item VI. Approval of the October 13, 2016 Minutes

YMPO is requesting the approval of the October 13, 2016 minutes.

Item VI. Highway Safety Improvement Program (HSIP)

YMPO is inquiring about prospective HSIP requests to ADOT for eligibility.

Item VII. Transportation Improvement Program (TIP) Amendment 12

YMPO is providing an update to the funding numbers that were provided by the City of Yuma and ADOT paperwork for the COY-TE-08C Fourth Ave Gateway (SL725 01C) Transportation Alternatives (TA) project.

The funding level for this project are as follows:

- Federal Funding: $519,541
- 5.7% Local Match: $31,403
- Over Match: $205,473
- Total Project: $756,417
Item VIII. YMPO 2018-2041 Regional Transportation Plan Update

YMPO Staff will update the TAC with the status of the RTP.

Item IX. STP Apportionment/Obligation Authority Rate

Legislation has come out with the new OA Rate of 90% Federal and 10% Match.

Or .900101480651711 Obligation Authority (OA) Rate and .099898519348289 Match

Brian Brady

Senior Planning/Mobility Manager  
Charles A. Gutierrez

Administrative Assistant  
Melissa Ramos

Accountant II  
Maria Yousif

I. CALL TO ORDER  
A. City of Yuma declaration of votes
   City of Yuma: Jon Fell 2 votes, Jennifer Albers 2 votes, and Joel Olea 1 vote.

II. CALL TO THE PUBLIC  
This item is to provide an opportunity for presentation of comments by the public.  
Individuals wishing to address the committee need not request permission in advance and are limited to three (3) minutes.
III. PUBLIC OUTREACH FOR THE AZ LRTP METROQUEST UPDATE
Alice Templeton provided a link, WhatmovesyouArizona.metroquest.com, and encouraged all to take a survey for the ADOT Long Range Transportation Plan (AZ LRTP). The survey allows you to rank six transportation priorities (preservation, expansion, safety, technology, accessibility, and maintenance and operation) and locate funds to the projects you prioritized. There are drop down boxes, in the survey, to provide more information on the projects. The survey is available in Spanish and available until November 11, 2016.

IV. REGIONAL ELEVATION AND PICTOMETRY PRESENTATION
The presentation had to be cancelled and YMPO staff will reach out the agencies for next available time for the presentation.

V. ARIZONA STATEWIDE EMPLOYMENT DATABASE VIEWER
See attached for the presentation Brian Brady presented.

VI. APPROVAL OF THE SEPTEMBER 8, 2016 MINUTES
Jennifer Albers motioned to accept the minutes of September 8, 2016 as presented.

Maggie Castro seconded

Motioned carried unanimously

VII. REASONABLE AVAILABLE CONTROL MEASURES (RACMS)
Charles Gutierrez will send a remind to agencies that have not turned in their RACMS. RACMS help keep up with the air conformity analysis and ADEQ requirements.

VIII. UPDATE OF THE YMPO EXECUTIVE DIRECTOR AND INTRODUCTION OF THE ACCOUNTANT II
YMPO Executive Director interviews will be held October 13, 2016 at the Yuma County-Aldrich Auditorium. The YMPO Executive Board will interview two applicants. Mark Hoffman introduced Maria Yousif, YMPO Accountant II.

IX. TRANSPORTATION IMPROVEMENT PROGRAM (TIP) AMENDMENT 12
ADOT requested that COY-TE-08C Fourth Ave Gateway (SL725 01C) Transpiration Alternative (TA) project be moved into the FY 17 construction year in TIP. The project cost will remain the same $519,437 Federal, $31,507 match, plus an over match of $1,816 (COY will pay this amount), $552,760 total. This project is going out to bid in October 2016.

Roger Patterson motioned to amend the TIP as recommended.

Joseph Grant seconded

Motioned carried unanimously
X. TAC PROJECT STATUS REPORTS

Town of Wellton:
   Coyote Wash Bridge - going out to bid in June 2017, Charles Gutierrez is working with Sierra Vista on the loan process for this project

Yuma County:
   Ave 3E to Hwy 95 to Araby Rd - see attached
   County 12th St. and Ave D Bridge replacement - see attached
   County 18th St and Somerton Ave - see attached
   North Frontage Road 11E - received the environmental clearance, 60% design

City of San Luis:
   Juan Sanchez Blvd - Juan Sanchez Blvd and First Ave (dirt road that leads to the school) an island was installed for right turns only, second phase will include traffic signal on Fourth Ave and Juan Sanchez Blvd

City of Yuma:
   3E to Hwy 96 to Araby Rd - see attached
   32nd St. Pavement Preservation
   West Main Canal Pathway - started phase 2 (Magnolia – Ave B) will finish lighting, signage, and striping

City of Somerton:
   TE Project Cesar Chavez Pathway - consultants are working on ROW

ADOT:
   See attached
   Call for Safety Projects - January 2017
   To receive ADOT LPA info sign up for Gov Delivery
   ADOT is reviewing the first phase of the frame work for the Transportation Alternative Program and the Off System Bridge will follow.

Melissa Ramos
YMPO Administrative Assistant

Charles Gutierrez
YMPO Senior Planning Manager

John Starkey,
Chairman YMPO TAC
16th Street and 4th Avenue

Construction for the 16th Street and 4th Avenue intersection improvements project is under way. The current phase of work reduces 16th Street to one lane of through traffic in each direction. Northbound and southbound lanes on 4th Avenue are restricted to one lane on their respective approaches to the intersection. Right turn restrictions remain in place for large trucks and semitrailers.

The City asks all motorists to plan ahead and to obey the reduced speed limit. While business access will be maintained at all times, those seeking through traffic routes may wish to avoid the construction zone, using roads such as 24th Street, 8th Street or 32nd Street for east-west through traffic, and Arizona Avenue, Avenue A, Pacific Avenue or Avenue B for north-south through traffic.

Water pressure: The City would like to remind the public that lower than normal water pressures may be experienced as parts of the City's old water system are being prepared for replacement by a new system, between now and then end of November. Lower than normal water pressure may be experienced during peak morning hours of 6 a.m. to 9 a.m. and in the afternoon between 4 p.m. and 7 p.m. The areas most likely to be impacted are those from the East Main Canal to just west of 4th Avenue, from 12th Street to 24th Street.

24th Street, avenues B-C

The street reconstruction of 24th Street from Avenue B to Avenue C is under way. The current phase of the 120-day project will require a closure at 24th Street, from the driveway of the apartment complex west of Avenue B to 31st Avenue. Detour routes include 28th Street, 20th Street and 32nd Street. Work will then move west along 24th Street to Avenue C.

1st Avenue, 25th - 26th streets

A portion of 1st Avenue between 25th and 26th streets will be closed to through traffic as crews replace a gas service line. Drivers will be asked to detour through 25th or 26th Street. Signs will be posted in the area to alert drivers to the road closure. The project is expected to be completed by early November.

20th Street, 3rd Avenue

A project to rebuild overhead facilities and to replace four APS power poles will require a road closure along 3rd Avenue, between 20th Street and 21st Street. This traffic control plan will be in place until mid-October. Road signs will be in place to alert drivers to the road closure as they approach the work zone, and to direct them to detour through 4th Avenue or 1st Avenue.
32nd Street, Avenue A

A lane will be closed along 32nd Street near its intersection with Avenue A for a 60-day project that requires access to a manhole in the area. Eastbound traffic will be reduced to a single lane through the intersection area. There will also be a partial lane closure along Avenue A near the same intersection. Signs will be posted to alert drivers of the upcoming closure as they approach the 32nd Street and Avenue A intersection. The speed limit near the work zone will be reduced to 25 mph. The project is expected to be completed by the end of December.

12th Street, Yavapai Ln. to Ave. D

A portion of 12th Street, from Yavapai Lane to Avenue D, will be closed beginning Monday, Oct. 24. Starting Oct. 24, crews will be working on the water, sewer and storm drain near Clip Street and 12th Street. Motorists are advised to plan ahead and to use an alternate route.

Castle Dome Avenue

A 60-day project will require shoulder work on Castle Dome Avenue and its adjacent sidewalk. Signs will be posted in the area to let drivers know of the roadwork as they approach. Work will be completed by the first week of November.

U.S. 95 at Fortuna Wash - ADOT

Work is under way on the $9.3 million bridge on U.S. Highway 95 spanning Fortuna Wash northeast of Yuma and is expected to be completed by next winter. The bridge is going in at milepost 34, approximately 12 miles northeast of Yuma and 10 miles south of the turnoff (Imperial Dam Road) to Yuma Proving Ground. Crews are scheduled to work weekdays between 6 a.m. and 4 p.m. Motorists should allow extra travel time as lane restrictions will be in place and flaggers will occasionally need to alternate traffic through the work zone.

West Main Canal, Avenue B - 1st Street

The Arizona Department of Transportation (ADOT) is administering a project to construct a paved pathway, lighting and rest stops along the West Main Canal. The project will require the closure of the canal banks until this fall. Crews will be working along the north bank of the canal between 1st and 3rd streets, from Avenue A to Avenue B. Work will be done from 5 a.m. to 2:30 p.m. on weekdays. This project is to be completed near the end of 2016.

Maiden Lane, 1st-2nd streets: Maiden Lane is closed to traffic from 1st Street to 2nd Street 7 a.m. and 5 p.m. Monday through Friday.

Avenue 3E, MCAS-Yuma North Gate: A project to remove existing overhead and an underground conductor for APS will require sidewalk and lane closures along a portion of Avenue 3E, near the MCAS-Yuma North Gate entrance. Flaggers and road signs will be in place to notify of motorists of the reduced 25 mph speed limit near the work zone for both northbound and southbound traffic. Work is to be completed by Jan. 13, 2017.
**Avenue A, near 24th Street**

Crews will be installing new sidewalk and curbing along Avenue A, just south of where it meets 24th Street, for a total duration of three days. The project will require the southbound right lane of Avenue A to be closed near the work zone. Signs will be put into place to notify drivers of the reduced speed limit and lane closure as they approach the area. The project is to be completed by the end of October.

**8th Street, Avenue D**

A project to tie in water services for a subdivision will require a full road closure of 8th Street and 12th Street near Avenue D, in two separate phases. During the first phase, a portion of 8th Street will be closed to all traffic. Signs will be posted near the work zone to alert traffic to the full road closure and to direct motorists to use 12th Street as a detour. During the second phase of the project, a similar closure will be in place at 12th Street, and motorists will be directed to detour through 8th Street. Work is scheduled to begin as early as Oct. 26, and will finish at the end of the year.

**Arizona Avenue, 20th Street**

A project to install new fiber near the intersection of Arizona Avenue and 20th Street will require shoulder work along 20th Street near its intersection with Arizona Avenue, and will restrict any roadside parking along 20th Street near the work zone. The project is to be completed by the end of December.

**16th Street, El Paseo Real**

Crews will be performing valve maintenance at a location on 16th Street, near El Paseo Real. The project will require a lane closure along 16th Street and a reduced speed limit near the work zone. Signs will be posted to alert traffic to the closed lane and direct them through the area. The project is to be completed by the end of January.

**5th Avenue, 5th - 7th streets**

A project to replace a gas service line will require the closure of 5th Avenue between 5th and 7th streets. Additionally, the sections of 5th Street, 6th Street and 7th Street that extend from 4th to 6th Avenue will be closed to through traffic as part of the project. Signs will be posted in the area to direct traffic to nearby detours through 4th Avenue or 6th Avenue, to 4th or 8th Street. The project is expected to be completed by the end of January.

**Interstate 8 west of 4th Avenue - Caltrans**

Caltrans crews continue the reconstruction of I-8 in Imperial County, west of Yuma. Associated lane closures and detours may cause significant delays. Signage will be posted alerting motorists of the work and associated detours. The segment of work closest to Yuma is located west of SR-186 to the state line where Arizona meets California. Traffic is reduced to one lane in each
direction from the Agricultural Checkpoint in California, to the state line with Arizona. The westbound off-ramp and on-ramp at Fourth Avenue are closed with detour and signage in place to direct traffic to use Winterhaven Drive. Additionally, the eastbound off-ramp and on-ramp at SR-186/Algodones Road are closed with detour and signage in place to use Winterhaven Drive and Sidewinder Road. Over-sized vehicles and farm vehicles wider than 12 feet are prohibited from traveling westbound on I-8 between Stateline Road and the Winterhaven Drive/Fourth Avenue; those vehicles should exit at Giss Parkway.

**Fall Slurry Seal Project**

A contractor working for the City of Yuma will apply slurry seal beginning Oct. 24 through Nov. 6. Work hours are from 7 a.m. to 5 p.m. The project will take place on the following streets and in the following subdivisions:

**Major Roadways**
- 14th Street, 8th - 16th streets
- Arroyo Drive
- Magnolia Avenue
- 12th Street, Avenue C - 21st Drive
- South Letvin Avenue
- Avenue 5½ E, 40th - 44th streets
- 20th Street, between Letvin Avenue and the west end

**Subdivisions**
- Verde Valley
- Chantal Estates
- Sun Crest
- Country Meadows 1 and 2
- Thomas A. White subdivision
- Downtown Yuma area, Roxaboxen

Slurry seal is a mixture of asphalt emulsion, water, sand, and concrete. It provides a cost-effective new wearing surface that can extend the life of the pavement by at least five years. A 24-hour advance notice will be passed out to residents by the contractor prior to working on the affected street. Streets will reopen the same day by 5 p.m. Please pass this information to all concerned parties. City of Yuma Public Works Department employees will serve as the inspectors for the contractor applying the slurry seal.

**City Street Maintenance:** Asphalt maintenance crews will conduct operations in various locations as needed the week of Oct. 31-Nov. 4.

- Second part of Sierra Montana subdivision (fog seal)
- Ponderosa Valley Estates 1 (fog seal)
- Chantal Estates 1 (fog seal)
- Las Casitas subdivision (crack seal)

**Project Name:** Cesar Chavez Ave; US 95 – Madison St  
**Type Of Work:** Construct Multiuse Path  
**ADOT PM:** Greg Johnson 602.712.7774  
**Project Status:** C&S has a signed contract executed. The City has two separate plans for the acquisition of the needed ROW. ROW offers have been made to 5 property owners – 2 have been received and will submit counter offers, 2 have been received with no responses yet and 1 owner has not been located. Missing owner has been located in a CA prison – project has been redesigned to eliminate any need for ROW acquisition or TCE on that parcel. 3 counter offers have been submitted from other owners and 1 counteroffer has yet to be received. Stage IV was submitted on 09/16/16. Stage V submittal scheduled for 11/14/16. Currently, the proposed Bid Advertisement date is 02/03/2017. (11/2/2016)
