YMPO Bicycle and Pedestrian Study and Design Standards RFP Comment Form

Date:	7/25/18	Name:	Amy Moran (Wilson & Co)
-------	---------	-------	-------------------------

Item No.	Dwg, Sht, Page No.	Comment	Disposition, Init. Final;
1.	7	Item 1 references "Sample report requested in item B is not included in the page count", but there does not appear to be an "item B" contained in the RFP. Is this referencing the Item 2 in that same list?	Yes, any sample report(s) that are submitted as example of what your company has done in the past will NOT be counted as part of the page limits stated.
2.	7	This comment refers to the bolded paragraph: " Please submit your RFP response with topical discussions corresponding to the numbers (excluding the cover letter, #1) in the outline below. It is not clear as to which numbered outline this is referring. Would those be the bulleted items included on page 7, where it is stated: "required to adhere to the following format":	There are two outlines that it could refer to. The first is a bulleted list under Section XI that is included on pages 7 and 8 and the second is a numbered list under Section XII that is included on pages 8/9. The two lists refer to similar items, but YMPO requests that responders should only respond to the first list, with the bullets that refer to Introduction, Scope of Work, Project Personnel, Project Schedule, and Experience and References, as this contains an expected project schedule. If responders have already included answers to the second list, you may leave them in and will not be penalized for providing more information than requested. Similarly, additional credit for providing more input will not be forthcoming.
