YMPO INFORMATION SUMMARY for Agenda Item #4

Description of the YMPO Title VI Program

DATE: January 26, 2019

SUBJECT: The YMPO 2019 Title VI Program

SUMMARY: YMPO Title VI Plan

Title VI of the Civil Rights Act of 1964 ("Title VI") is the main legal authority for the Yuma Metropolitan Planning Organization's (YMPO) external nondiscrimination programs. YMPO's Title VI Program includes the American's with Disabilities Act (ADA) and other nondiscrimination statutes that prohibit discrimination on the basis of race, color, national origin, age, sex, or disability in programs or activities receiving federal financial assistance. Once an agency accepts federal funds, all of its programs and activities are covered, regardless of their funding source. Related statutes and presidential executive orders under the umbrella of Title VI address environmental justice (EJ) in minority and low-income populations and services to those individuals with limited English proficiency (LEP), women and the disabled.

The Federal Aid Highway Act of 1973, Section 504 of the 1973 Rehabilitation Act, and the 1975 Age of Discrimination Act, extend requirements of Title VI to include the prevention discrimination on the grounds of age, sex, disability, and income status. The Civil Rights Restoration Act of 1987 added the requirement that Title VI applies institution-wide; it is not limited to the program that receives federal funding (e.g., planning, capital, operations). The YMPO Title VI notice to the public that indicates the recipient complies with Title VI and informs members of the public of the protections against discrimination afforded to them by Title VI.

YMPO is therefore required to complete, implement, and report in good faith a Title VI Plan for our members, the public, and consultants/vendors. All data will be reported to the Arizona Department of Civil Rights Office.

YMPO Staff has prepared and a 2019 Title VI Nondiscrimination in Federally Assisted Programs Report. This report identifies the current YMPO Executive Board Chairwoman as the Chief Title VI Officer and Executive Director Paul Ward as the Title VI Liaison/Coordinator. However, next month, in February 2019, the newly elected Chair will assume the position of YMPO Title VI Officer.

PUBLIC INPUT:

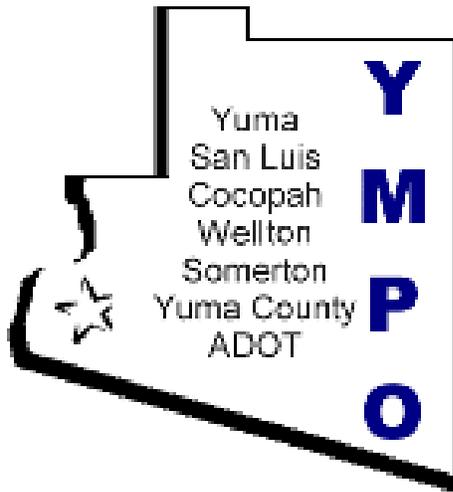

There have been no specific public comments on this process, to date.

ACTION NEEDED:

A motion to Approve the YMPO 2019 Title VI Nondiscrimination in Federally Assisted Programs Report. An additional approval that will include that at the February 2019 Meeting the new Chair will assume the role of the Title VI Program.

TITLE VI/ADA NONDISCRIMINATION POLICY STATEMENT

The Yuma Metropolitan Planning Organization (YMPO) as policy ensures non-discrimination compliance, on the grounds of race, color, national origin, age sex, disability, limited English proficiency, or low-income status as provided by Title VI of the Civil Rights act of 1964. The Civil Rights Restoration Act of 1987, Section 504 of the Rehabilitation Act of 1973, Americans with Disabilities Act of 1990 (ADA), Executive Order 12898 (environmental Justice), Executive Order 13166 (Limited English Proficiency), Code of Federal Regulations 49 Part 21, Code of Federal Regulations 23 part 200, and Code of Federal Regulations 49 part 303.

YMPO's sub-recipients, grant recipients, and contractors must all comply with this policy.

The YMPO works closely with the Civil Rights Office at the Arizona Department of Transportation, and consultants who work on program responsibilities. Therefore, each program area will take full responsibility for preventing discrimination and ensuring nondiscrimination compliance in all of YMPO's programs and activities.

YMPO will send a final written response to the complainant and advise the complainant of his or her right to file a complaint externally. YMPO will use its best efforts to respond to Title VI complaints within 60 working days of its receipt of such complaints.

VI. LIMITED ENGLISH PROFICIENCY (LEP) PLAN

YMPO Limited English Proficiency Plan

The Yuma Metropolitan Planning Organization (YMPO) is responsible for an on-going, cooperative, and comprehensive transportation planning process in Yuma County. This planning process guides the use of federal and state dollars spent on existing and future transportation projects or programs, and the **Limited English Proficiency (LEP) Plan** plays an integral role in the process. This document will detail the LEP Plan, developed in conjunction with best practice standards for public involvement.

Introduction

On August 11, 2000, President William J. Clinton signed an executive order, Executive Order 13166: Improving Access to Service for Persons with Limited English Proficiency, to clarify Title VI of the Civil Rights Act of 1964. Its purpose was to ensure accessibility to programs and services to eligible persons who are not proficient in the English language.

This executive order stated that the individuals who do not speak English well and who have a limited ability to read, write, speak, or understand English are entitled to language assistance under Title VI of the Civil Rights Act of 1964 with respect to a particular type of service, benefit, or encounter. It reads in part,

Each Federal agency shall prepare a plan to improve access to its federally conducted programs and activities by eligible LEP persons. Each plan shall be consistent with the standards set forth in the LEP Guidance and shall include the steps the agency will take to ensure that eligible LEP persons can meaningfully access the agency's programs and activities.

Not only do all federal agencies have to develop LEP Plans, as a condition of receiving federal financial assistance, recipients have to comply with Title VI and LEP guidelines of the federal agency from which funds are provided.

Federal financial assistance includes grants, training, and use of equipment, donations of surplus property, and other assistance. Recipients of federal funds range from state and local agencies, to nonprofits and other organizations. Title VI covers a recipient's entire program or activity. This means all components of a recipient's operations are covered. Simply put, any organization that receives federal financial assistance is required to follow

this Executive Order. The US Department of Transportation (DOT) published Policy Guidance Concerning Recipient's Responsibilities to Limited English Proficient Person in the December 14, 2005 Federal Register. The guidance explicitly identifies MPO's as organizations that must follow this guidance:

The guidance applies to all DOT funding recipients, which include state departments of transportation, state motor vehicle administrations, airport operators, metropolitan planning organizations, and regional, state, and local transit operators, among many others. Coverage extends to a recipient's entire program or activity, i.e., to all parts of a recipient's operations. This is true even if only one part of the recipient receives the Federal assistance. For example, if DOT provides assistance to a state department of transportation to rehabilitate a particular highway on the National Highway System, all of the operations of the entire state department of transportation – not just the particular highway program or project – are covered by the DOT guidance.

The intent of this Limited English Proficiency Plan is to ensure access to the planning process and information published by the MPO where it is determined that a substantial number of residents in Yuma County do not speak or read English proficiently. The production of multilingual publications and documents and/or interpretation at meetings or events will be provided to the degree that funding permits, based on current laws and regulations.

LAWS AND POLICIES GUIDING LIMITED ENGLISH PROFICIENCY PLANS

As part of the Metropolitan Planning Organization certification by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA), the LEP Plan will be assessed and evaluated. The following matrix illustrates these laws, policies, and considerations:

Who is an LEP individual?

As defined in the 2000 United States Census, it is any individual who speaks a language at home other than English as their primary language, and who speaks or understands English “not well” or “not at all”.

Determining the Need

As a recipient of federal funding, the YMPO must take reasonable steps to ensure meaningful access to the information and services it provides. As noticed in the Federal Register/Volume 70, Number 239/Wednesday, December 14, 2005/Notice, there are four factors to consider in

Determining “reasonable steps”:

- Factor 1: The number and proportion of LEP persons in the eligible service area;
- Factor 2: The frequency with which LEP persons encounter YMPO programs;
- Factor 3: The importance of the service provided by YMPO programs;
- Factor 4: The resources available and overall cost to the YMPO.

The DOT Policy Guidelines gives recipients of federal funds substantial flexibility in

determining what language assistance is appropriate based on a local assessment of the four factors listed above. The following is an assessment of need in Yuma County in relation to the four factors and the transportation planning process.

LEP ASSESSMENT FOR THE YUMA METROPOLITAN PLANNING ORGANIZATION

Factor 1: The Number and Proportion of LEP persons in the YMPO Service Area

The first step towards understanding the profile of individuals that could participate in the transportation planning process is a review of the 2010 Census Data. For planning purposes, YMPO is considering individuals that speak English “not well” or “not at all” and only, the top three language groups are included in the analysis.

Table 1 is derived from the 2010 US

Census and shows the percentage of persons that speak English, Spanish, or another language at home. The City of San Luis has the greatest concentration of LEP persons – over 94%. The second highest is the City of Somerton with 93.5%.

Table 1: Limited English Proficiency Persons in the YMPO Planning Area and Local entities

Factor 2: The Frequency in which LEP Persons Encounter YMPO Programs

The growing size of the LEP population in this region will likely increase the probability of future contact with the YMPO. There have been several requests in the past to provide publications in Spanish as well as an interpreter for public meetings.

3: The Importance of Services Provided by YMPO Programs

The YMPO programs utilize federal funds to plan for future transportation project and therefore do not include any direct service or program that requires vital, immediate, or emergency assistance such as medical treatment or services for basic needs (e.g., housing or food).

However, the YMPO must ensure that all segments of the population, including LEP persons, have been involved or have had the opportunity to be involved in the transportation planning process to be consistent with the goal of the Federal Environmental Justice program and policy.

	Language Spoken at Home		
	English	Spanish	Other Languages
San Luis	3.7%	94.2%	2.1%
Somerton	5.6%	93.5%	.9%
Wellton	55.3%	38.3%	6.4%
Gadsden	48.4%	49.3%	2.3%
Dateland	31%	69%	--
Tacna	46.6%	49.5%	4.1%
Yuma City	64.7%	27.4%	7.9%
Yuma County	39.2%	55.7%	2.3%

The impact of proposed transportation investments on underserved and underrepresented population groups is part of the evaluation process in use of federal funds in three (3) major areas for the YMPO:

- The annual Unified Work Program and Budget
- The four-year Transportation Improvement Program
- The Regional Transportation Plan, covering 23 years

Inclusive public participation is a priority consideration in other MPO plans, studies, and programs as well. The impacts of transportation improvements resulting from these planning activities have an impact on all residents. Understanding and continued involvement are encouraged throughout the process. The YMPO is concerned with input from all stakeholders and every effort is taken to make the planning process as inclusive as possible.

As a result of the Transportation Improvement Program and Regional Transportation Plan, selected projects receive approval for federal funding and progress towards project planning and construction under the responsibility of local jurisdictions or state transportation agencies. These local and state organizations have their own policies to ensure LEP individuals can participate in the process that shapes where, how, and when a specific transportation project is implemented.

Factor 4: The Resources Available and Overall YMPO Cost

Due to current financial constraints, translation of the large plan documents and maps are considered not warranted at this time. However, because of continued growth of the YMPO area and its LEP population, YMPO will create an inventory of language assistance measures that are currently provided and determine what additional services are needed to provide meaningful access to the LEP population. The YMPO will continue its efforts to collaborate with state and local agencies to provide language translation and interpretation services when practical and in consideration of available funding.

MEETING THE REQUIREMENTS

Engaging the diverse population within the YMPO service area is important. The YMPO is committed to providing quality services to all entities and citizens, including those with limited English proficiency. Spanish is the most dominant language spoken by LEP individuals in the YMPO service area. All language access activities detailed below will be coordinated in collaboration with the YMPO Executive Board and staff.

Safe Harbor Stipulation

Federal law provides a “safe harbor” stipulation so recipients of federal funding can ensure compliance with their obligation to provide written translations in languages other than English with a greater certainty. A “safe harbor” means that as long as YMPO has created a plan for the provision of written translations under a specific set of circumstances, such action will be considered strong evidence of compliance with written translation obligations under Title VI. However, failure to provide written translations under the circumstances does not mean there is noncompliance, but rather provides for recipients a guide for greater certainty of compliance in accordance with the four-factor analysis.

Evidence of compliance with the recipient’s written translation obligations under “safe harbor” includes providing written translations of vital documents for each eligible LEP language group that constitutes 5% or 1,000 persons, whichever is less of eligible persons served or likely to be affected. Translation can also be provided orally.

The “safe harbor” provision applies to the translation of written documents only. It does not affect the requirement to provide meaningful access to LEP individuals through competent oral interpreters where oral language services are needed and reasonable to provide.

Providing Notice to LEP Persons

US DOT guidance indicates that once an agency has decided, based on the four factors, to provide language services, it is important that the recipient notify LEP persons of services available free of charge in a language the LEP persons would understand. Methods for notification may include:

1. Signage that indicates when free language assistance is available with advance notice;
2. Stating in outreach documents that language services are available;
3. Working with community-based organizations and other stakeholders to inform LEP individuals of YMPO services and the availability of language assistance;
4. Using automated telephone voicemail or menu to provide information about available language assistance services;
5. Including notices in local newspapers in languages other than English;
6. Providing notices on non-English-language radio and television about YMPO services and the availability of language assistance; and
7. Providing presentation and/or notices at schools and community-based organizations.

The YMPO will provide Spanish interpreter services, free of charge, at YMPO Executive Board meetings, workshops, public meeting, or events which will be noticed on the YMPO website, if notified seven (7) days prior to needed services. The YMPO defines an interpreter as a person who translates spoken language orally, as opposed to a translator, who translates written language and transfers the meaning of written text from one language into another.

The YMPO can advertise public meeting notices in the Bajo Del Sol newspaper that serves the Hispanic community throughout Yuma County.

Language Assistance

A goal of the YMPO Public Participation Plan is to provide user-friendly materials that will be appealing and easy to understand.

VII. TRAINING

YMPO's Executive Director/Liaison/Coordinator and Senior Planning Manager receives Title VI Training by ADOT. The Title VI Liaison/Coordinator will provide training to the YMPO staff to ensure they understand the requirements of Title VI and related authorities including the complaint process and the LEP Plan, so staff can assist LEP individuals in person and/or by telephone. YMPO Executive Board members will receive a copy of the LEP Plan and the Public Participation Plan and have access to training to assure that they are fully aware of Title VI requirements, the LEP Plan, and the importance of public outreach.

New members of staff, Executive Board and Technical Advisory Committee (TAC) members are given an initial, formal, briefing on Title VI issues during their first few days; and after the initial session, further training is included as an integral part of a continuous, implementation phase. This allows our staff, Executive Board and TAC members, and members of the public, to be informed of any changes in policy and/or emphasis that might be forthcoming from time to time from Federal Authorities and ADOT. The

implementation phase also includes opportunities to remind members, at the beginning of any Board or TAC meetings or at the kick-off meetings for any new studies or plans that YMPO might commence, of the need for continual awareness of the importance of non-discrimination.

VIII. PROGRAM AREAS

A. Transportation Planning

The purpose of the YMPO's Transportation Planning Program is to assure that transportation and air quality planning and related issues and the implementation of projects, are effectively identified and coordinated by local, state, federal agencies, and the general public.

Management of the planning process is under direction from the YMPO Executive Board through the Executive Director. It is the function of the Executive Board to act as a policy body coordinating transportation planning, traffic engineering, and air quality conformity and related implementation activities within the overall regional comprehensive planning process.

The YMPO Technical Advisory Committee (TAC) provides review and input, as appropriate, and works closely with the YMPO's staff, providing guidance for development of all work activities.

The primary products of the Transportation Planning Process are preparing a 23-year Regional Transportation Plan, a 5-year Transportation Improvement Program, and the Air Quality Conformity Report.

B. Other Activities/Programs

1. Administration
2. Highway Performance Monitoring System (HPMS) Data
3. Functional Classification
4. Special Project Planning
5. Regional Planning
6. Public Participation Plan (PPP)
7. Public Transportation Planning
8. Environmental Overview
9. Capital Expenditures

The YMPO Executive Director/Title VI Chief Officer and the Title VI Liaison will provide review of the transportation related program areas to help ensure Title VI compliance in their programs and activities.

1. Process.

The MPO’s axiom is “Local Governments and Citizens Working Together”. The public input process used by the YMPO has many components. First, the elected representatives on the Executive Board receive citizen input from their communities in many ways. All have Call to the Public on their agency agendas and get direct input at that time. Several hold regular neighborhood meetings or lunch meetings to be available to their citizens to answer questions and receive input. In turn, the agency representatives carry forward this information to the YMPO Executive Board meetings and the Technical Advisory Committee meetings for discussion. The YMPO Executive Board meetings are open to the public, with agendas posted 24 hours in advance, and an item identified as Call to the Public is on the agenda of each meeting providing a specific forum for citizen input.

Additionally, YMPO conducts official public meetings that are advertised and held on specific agenda items, including but not limited to the 5-Year Transportation Improvement Program (TIP), the 23-Year Regional Transportation Plan (RTP), and the Unified Planning Work Program and Budget (UPWPB). At times, the public meetings have been held twice on the same day--once in the afternoon, and again in the evening--and at as many as six separate locations. YMPO conducts these public meetings in this manner to provide citizens ample opportunity to provide input. Moreover, YMPO staff will place in The Yuma Sun (a local newspaper) an advertisement in both English and Spanish prior to the final public meeting on the Regional Transportation Plan showing principal elements of the Plan and requesting comments. At the public meetings, YMPO staff solicits and accepts written comments as well. This solicitation is designed to target minority groups that typically do not respond to newspaper postings.

Moreover, YMPO will conduct an additional round of public meetings to seek input on technical analyses or alternatives that are defined as a result of the initial public input phase. For the RTP, YMPO will conduct a second series of public meeting at the same sites, and consultants performing transportation studies on the behalf of the YMPO will conduct similar public meetings. Finally, YMPO will send out letters of invitation for both sets of public meetings for the RTP. The process is described in further detail in the Public Participation Plan.

X. ENVIRONMENTAL JUSTICE (Executive Order 12898)

YMPO is committed to achieving Environmental Justice in its programs and activities. In accordance with the provisions of EO 12898, YMPO will consider minority and low-income populations in its planning process to minimize and mitigate any adverse health, safety, or economic effects on those populations.

The fundamental principles of Environmental Justice in DOT can be found at www.fhwa.dot.gov/environmental_justice/facts/ejfaq.cfm

XI. CONTRACTS AND SOLICITATIONS

YMPO contracts for some planning activities and professional services. The YMPO obtains consultant support by using a Request for Proposal (RFP) or Request for Qualifications (RFQ) procedure. Prior to advertising the RFP or RFQ, the YMPO will submit project information to ADOT who will determine a Disadvantage Business Enterprise (DBE) and/or race neutral goal(s). The requests are advertised with the DBE goal(s), and a compact list of qualified applicants is determined from the proposals submitted. A selection committee is formed, interviews with the short-listed consultants are held, and a consultant is chosen. The Executive Board must approve a contract before the Executive Director is authorized to sign it. Purchases less than \$2,500 may be done at the discretion of the Executive Director. Three verbal quotes are required for purchases more than \$2,500 and less than \$50,000. For purchases between \$50,000 and \$100,000, three written quotes are required. The Executive Board must authorize purchases greater than \$100,000 and must use sealed bids.

The consultants are required to conform to all Title VI provisions and those provisions specifically included in Request for Proposals and in the Contract for Services.

A. Request for Proposal

1. Solicitation

Respondents are notified that Disadvantaged Business Enterprises are encouraged to submit proposals to this request. The YMPO will ensure during the consultant selection process and award process, those respondents to this request will not be discriminated against based on sex, race, age, color, disability, creed, or national origin.

2. Qualifications and Selection Process

The choice of a consultant/firm will be determined by the applicants' technical merits and will be based on a combination of factors, including but not limited to the following: (1) Education of the staff assigned to the project, experience of the firm, the assigned project manager, and the assigned staff relative to the desired work; (2) References of bilateral processes or agreements from past clients to gauge competence, technical understanding of the issues, procedures, and tasks accomplished in reaching the objective; (3) Direct experience; 4) Project understanding and approach; and (5) the YMPO's has adopted ADOT's current race

neutral Disadvantaged Business Enterprise program. Based on the above technical factors, the YMPO's selection committee will rank the submitted proposals. The consultant/firm ranked highest will be chosen for negotiation of a final cost, at which time the Review Committee may review the attached cost estimates.

B. Contracts

Other Responsibilities of Consultant

The CONSULTANT shall comply with, at its own expense, the provisions of all local, state, and federal laws, regulations, ordinances, requirements, and codes that are applicable to the CONSULTANT as an employer of labor or otherwise. The CONSULTANT shall further comply with all laws, rules, regulations, and licensing requirements pertaining to its professional status and that of its employees, and shall require the same compliance of partners, associates, subcontractors, sub-consultants, and others employed or retained by it rendering any services hereunder. The Title VI Coordinator will review all documents for any and all CONSULTANT contracts, Memorandums of Understanding (MOUs), and Intergovernmental Agreements (IGAs) to assure that the Title VI language and appendices A-E are contained in the document.

XII. COMPLIANCE AND REVIEW PROCEDURES

A. Sub-recipient Review Procedures

The YMPO will review sub-recipient contracts, data collection, and analysis efforts and will interview staff to help ensure compliance with Title VI and subsequent authorities. YMPO does not have any sub recipients at this time.

XIII. PROJECT EFFECTS AND BENEFITS

The effects and benefits of YMPO projects, generally, are that transportation within the planning area is improved and that coordination has taken place among all agencies, assuring development of a complete, dependable, efficient, safe, aesthetically pleasing, and economical transportation system. It is a system that will provide safer and smoother traffic flow, will reduce fuel consumption, will optimize the use of citizens' personal and tax money, and will increase the efficiency of the existing transportation system. All citizens of the YMPO Planning Area benefit from these improvements.

XIV. LAWSUITS ALLEGING DISCRIMINATION

YMPO has had no lawsuits, investigations, or complaints during the past three years. All the member agencies have been contacted, and none reported any lawsuits, claims, or complaints filed against them for discrimination relating to transportation and/or public transit. A complaint log, a copy of which is attached, will be maintained should any of these occur.

XV. FEDERAL ASSISTANCE PROGRAMS

The YMPO presently receives yearly grants of Federal Transit Administration Planning Section 5303, grant funds in addition to and MAP21 Surface Transportation Program (STBG), SPR, and PL funds. Eligible entities within the YMPO planning area receive Section 5310, 5311, 5316, and 5317 which the 5310, 5316, and 5317 have been

combined into one source of funds in competing for the grant statewide.

XVI. COMPLIANCE AND ENFORCEMENT PROCEDURES

YMPO is committed to nondiscrimination in its programs and activities, and YMPO will enforce Title VI and related authorities and make every effort to identify and eliminate discrimination when it is found to occur. In the event that a complaint is made, the Title VI Coordinator will determine which program area is identified FTA or FHWA as the complaint. The Coordinator will then proceed to contact the necessary Federal and State agency depending on the program area of complaint. The Title VI Coordinator will for FTA program area components will Upon receipt of a completed complaint, YMPO will determine jurisdiction acceptability or need for additional information. Once the determination has been made to accept the complaint for investigation, ADOT CRO will be notified within 72 hours. Title VI complaints against YMPO sub-recipients, contractors, or consultants in FTA funded programs will be investigated by YMPO.

If during the investigation additional training is recommended to any YMPO Staff, sub-recipient, contractor, or consultant, the YMPO will administer training to correct the possible complaint. In the event, the YMPO Coordinator/Liaison determines that ADOT CRO needs to intervene for higher level training then ADOT CRO will be notified as to the next phase of mentioned training as recommended.

PUBLIC PARTICIPATION PLAN

I. PURPOSE

The purpose of a public participation plan is to ensure a proactive public involvement process that assures the opportunity for the public to be involved in all phases of the planning process by providing complete information, timely public notice, opportunities for making comments, full access to key decisions, and early and continuing involvement in developing transportation plans and programs.

Within these programs, the following components are defined for the purpose of establishing the proper participation protocols:

- A. **Transportation Improvement Program (TIP):** The Transportation Improvement Program represents the project selection document for federally-funded projects. Project priorities are indicated by the year the project is programmed. For federally-funded projects, the year programmed as indicated in the TIP refers to the Federal fiscal year ending September 30. Under federal guidelines, the TIP is a sequential, multi-year (3-5 years) program of transportation projects which is consistent with and implements the goals and objectives as described in the approved Regional Transportation Plan.
- B. **Regional Transportation Plan (RTP):** This long-range plan (covering a span of 23 years) developed under Federal Transportation Planning Guidelines is designed to provide the continual development of a complete, dependable, efficient, safe, aesthetic, and economical regional transportation system.
- C. **Air Quality Conformity Analysis (AQCA):** The YMPO has the responsibility to ensure that the transportation plans and programs within the YMPO planning boundaries conform to the state and national air quality plans and standards. Specifically, the emissions generated from proposed projects in the YMPO's five-year Transportation Improvement Program and the twenty-three-year Regional Transportation Plan must be consistent with and conform to air quality standards. The YMPO is required to undertake an air quality conformity analysis for two specific reasons: (1) to ensure that transportation investments (projects), strategies and programs, taken as a whole, have air quality impacts consistent with and conforming to state and national air quality plans and standards; and (2) to ensure that neither the transportation system as a whole nor individual transportation projects cause new air quality violations or worsen existing conditions.
- D. **Environmental Documents (ED):** Those documents developed by the YMPO that relate directly to environmental policy.
- E. **Regional Transportation Coordination Plan (RCP):** The plan is meant to establish goals, criteria, and strategies for delivering efficient, coordinated services to elderly, underemployed, or otherwise financially disadvantaged persons and persons with disabilities.

II. PUBLIC PARTICIPATION

To participate is to express one's self at the proper time and in the proper forum. Public participation means participation in planning by people (public) outside the Yuma Metropolitan Planning Organization (YMPO) and its member entities, by planning and engineering professionals and by those who are not professional planners or government officials. It is a process of taking part in the transportation planning and decision-making that affect the community.

The YMPO efforts to secure participation will be targeted to stakeholders, who are individuals or entities that could be significantly affected by the transportation plan recommendations or could significantly influence implementation. Stakeholders include but are not limited to: the general public; low income, minority and disabled communities; neighborhood representatives; chambers of commerce; special transportation interests such as freight shippers, transit users and bicycle organizations; local officials; military installations; and federal and state transportation agencies.

A. Why the YMPO needs the public involved in Transportation Planning:

1. The public has the right to have a strong voice in all matters of public policy, including planning.
2. Only the public can provide the information needed to develop, maintain, and carry out an effective transportation plan. Planning staff, consultants and local officials need comments from those who know the community best: the people who live and work there.
3. Involvement informs and educates the public about transportation planning and creates an informed community, which in turn leads to better planning.
4. Participation gives the public a sense of ownership of the plan. It fosters cooperation among the public and between them and the YMPO.

B. The public participation plan contains the following elements:

1. Involvement Opportunities
Provide the opportunity for the public to be involved in all phases of the planning process. See Sections III, VI, and VII for details.
2. Communication
Establish mechanisms for maintaining communications between the public and local officials such as processes like mailings, legal ads, displays, and newsletters. See Section IV for details.
3. Information
Assure that technical information is available and in simplified, understandable form. See Section V for details.
4. Response to Public Input
A description of the methods used to respond to comments from the public. See Section VIII for details.
5. Advisory Committees
The use of the committees and the means of providing a cross-section of affected citizens on the advisory committees. See Section IX for details.

III. PUBLIC PARTICIPATION PROCESS

To have a proactive public involvement process, the YMPO will provide a public comment period of 30 days on the proposed public participation procedure to be used in transportation planning process. The procedures will inform the public about how, when, and where they may participate. Public notification will be as provided in Section IV.

IV. PUBLIC NOTICE

A. Official notification of meetings, hearings, or other significant events will be provided in the following manner:

1. Publication will be at least thirty (30) days prior for public hearings and an adequate period for public meetings. An explanation of the content, along with the date, time and the place of the meeting will be published in both English and Spanish at least once in a newspaper of general circulation in the Yuma area.
 2. The official notice will be published as a display advertisement in the non-legal section of the newspaper.
- B. The YMPO will also utilize the following techniques to disseminate the information to a larger audience:
1. Information regarding meetings and events will be placed on the YMPO web site: www.ympo.org
 2. Public Service Announcements and interviews on radio, government cable, and television to explain subject matter and promote participation.
 3. Articles and Press Releases for the newspaper or other widely circulated publications.
 4. Mass mailings through utility bills or other documents that are periodically issued to the community at large.
 5. Use of advisory committees for community involvement.
 6. Informal presentations at regional sites, open houses, round tables, or other community forums.
 7. Formal presentations to various service clubs, civic, and professional groups.
 8. Mailings to select individuals, groups, or interests that have expressed interest or made comments at meetings.

V. ACCESS TO INFORMATION

The YMPO will provide the public with reasonable and timely access too technical and policy information relating to the data or content used in the development of transportation plans, programs, and projects. Standard documents will be available on the YMPO web site www.ympo.org and at the YMPO office 502 S Orange Ave. during normal working hours. Copies of draft plans will also be placed at the main branch location of the Yuma County Library District.

VI. PUBLIC MEETINGS

Public information meetings will be held at various Yuma area locations to inform the public of the planning process and to solicit ideas, input, and feedback. Public hearings and public information meetings will be held at locations accessible to and at times convenient to minority and disabled residents. The intent of holding public informational meetings at diversified locations is to solicit broad public comments. General locations of meetings will be in the City of San Luis, City of Somerton, City of Yuma, Yuma County Foothills, and Town of Wellton.

Notice of public hearings and public informational meetings will be given in accordance with and as listed in Section IV. A reasonable attempt will be made to notify organizations representing minority and disabled people and a request made that they provide their members with meeting notice and information.

Special arrangements will be made to accommodate persons with disabilities, low income, and people who do not speak English. For those without transportation and the disabled, the YMPO may provide free transportation via public transit to the meetings. Interpreters will be provided to accommodate Spanish-speaking individuals.

VII. VISUALIZATION

In order to ensure that the public is able to visualize the potential impact of any transportation or planning project, the YMPO will provide visual aids at public meetings and/or at the YMPO office. The visual aids may include but are not limited to the following types:

- A. Power Point Presentations
- B. Story Boards
- C. Project Renderings
- D. Regional and Project Level Maps
- E. Satellite Photos
- F. Project Site Photos
- G. Charts and Graphs
- H. "Before and After" Depictions

VIII. OPPORTUNITIES FOR PARTICIPATION

The YMPO will take a proactive approach to providing the opportunity for the public to be involved early and with a continuing involvement in all phases of the planning process. Extensive public notice will be undertaken of public information meetings and hearings as listed in Section IV and access to information as listed in Section V. Prior to the beginning of the public participation process, a list of names and addresses of citizens and organizations will be developed that will be contacted on a continued basis to serve as a base of interested citizens for input and comment. This list will be expanded as additional citizens attend the informational public meetings and make comments.

IX. CONSULTATION WITH REGIONAL PARTNERS

YMPO will coordinate meetings with local, state, regional, and tribal entities that are affected by its planning projects. For example, the YMPO may host a meeting(s) to review and receive comment concerning transportation-related projects in addition to mass mailings and all other official comment periods. Below is a general list of the regional partners that should be invited to participate, and the list should be updated to reflect changes in federal and state transportation planning regulations.

- A. Arizona Department of Transportation Office of Environmental Services
- B. Cocopah Indian Tribe
- C. Quechan Indian Tribe
- D. Bureau of Indian Affairs
- E. Arizona Department of Environmental Quality
- F. Arizona Game and Fish Department
- G. Arizona State Historic Preservation Office
- H. Marine Corps Air Station Yuma
- I. U.S. Army Yuma Proving Grounds
- J. U.S. Fish and Wildlife Service
- K. U.S. Environmental Protection Agency
- L. U.S. Army Corps of Engineers
- M. U.S. Department of the Interior (the Bureaus of Reclamation and Land Management)
- N. Federal Highway Administration
- O. Arizona Department of Transportation
- P. U.S. Forest Service
- Q. National Park Service
- R. Arizona Department of Water Resources
- S. Arizona State Land Department

This list assumes that the local government agencies that comprise the YMPO TAC and Executive Board membership are automatically included in a Regional Partners list.

X. RESPONSE TO PUBLIC INPUT

Responses to questions and comments from the public concerning the public participation process, draft transportation plans, programs, or public agency consultation process will be made directly to the individual by letter or telephone call or by way of a periodic newsletter. A summary analysis and report on disposition of comments will be made a part of the final plan. Rationale for policy decisions will be available to the public in writing if requested.

XI. ADVISORY COMMITTEES

Advisory committees will be formed to advise the YMPO Executive Board and staff in the preparation and review of public participation plans, transportation plans, programs, and other related matters. There are two types of committees:

- A. The Technical Advisory Committee (TAC) is a permanent committee that is composed of technical, planning, and or managerial staff representatives from each of the participating agencies of the YMPO. The membership of ten is as designated by the member agencies and number of members is fixed. In addition, there are ex-officio non-voting members from the Marine Corps Air Station, Bureau of Indian Affairs, Yuma County Intergovernmental Public Transportation Authority, and the Yuma Airport Authority. The TAC has an area representation makeup. Subcommittees of the TAC will be utilized to study issue areas not requiring the full TAC participation.

B. Specific citizen advisory committees will be formed on an ad hoc basis; members will be selected for their expertise, interest, or as an affected stakeholder. Examples are representatives of interest groups, transportation agencies, minorities, disabled, or representatives of geographical areas, such as neighborhood associations. The number of committee members will vary with the purpose for which the committee is formed. All committee members will have an equal voice in deliberations.

Examples of ad hoc advisory committees include: Transit Committee; Yuma County Transportation Consortium; Port Authority Formation Committee; Yuma County Pedestrian Safety Task Force, and Regional Transportation Plan Committee.

XII. TITLE VI

As part of the transportation planning process to meet the requirements of Title VI and to better serve the community the YMPO will reach out to the disadvantaged to ensure participation. Members of the Executive Board of the YMPO will continue to hold localized meetings in their respective areas where transportation issues are discussed. Advertising for major public meetings will be in both English and Spanish. Citizens that express interest or make comments at a public meeting will be put on a mailing list to be notified of other meetings and any proposed actions. For those without transportation and the disabled, the YMPO will provide free transportation via public transit to the meetings. A reasonable attempt will be made to notify organizations representing minority and disabled people and a request made that they provide their members with meeting notice and information. Attempts to have minority and disabled citizen representation on advisory committees will be made. Native American representations in the planning process is assured because the Cocopah Indian Nation is a full member of the YMPO and have direct involvement in transportation decisions.

XIII. AMENDMENTS

Substantial changes or amendments to a transportation plan will be done only after the public has been notified of an intent to modify the plan, and only after the public has had 30 days to review and comment on the proposed substantial changes. Notice, access to information and all public meetings will be in accordance with and as listed in Sections IV, V, and VI, respectively.

XIV. EXECUTIVE BOARD ACTION

The Executive Board of the YMPO will hold the final public hearing on the transportation plans. Notice of the time and place of the Public Hearing will be provided in accordance with the notification requirements listed in Sections IV, V, and VI. Following the Public Hearing, the adoption of transportation and related plans will be by Resolution of the Executive Board.

XV. FOLLOW UP

This is the initial effort of the YMPO to formalize the public participation process for transportation and related plans. This document establishes the basic techniques for disseminating the information to the public and engaging the citizens in interactive discussions about the transportation planning process. The YMPO will continue to identify and pursue other ways to increase public knowledge and participation. A review of the effectiveness of the public involvement process will be made on a tri-annual basis.

Mr. Ward, informed Board members that Paul Melcher, the Yuma County Director of Economic Development and Intergovernmental Relations was not able to attend the meeting. As a result, Mr. Ward asked the Chairwoman to defer item to a future meeting.

7. FY 2018-19 YMPO Unified Planning Work Program (UPWP) Amendment #1

Mr. Ward presented Amendment #1 of the FY 2018-19 UPWP and reported on the memo with the various adjustments along with the respective financial tables. He mentioned that the Arizona Department of Transportation (ADOT) had confirmed FY 2017-18 brought forward amounts for the current UPWP. Mr. Ward informed the Board that some of the funding for studies that will be completed in next fiscal year were moved to other categories. He explained that there will still be a balance that we will need to carry forward to the next fiscal year to continue funding the studies already started or which will be started by the end of the fiscal year. He expected to present a new UPWP early next year.

MOTION: Deputy Mayor Knight moved to approve Amendment #1 of FY 2018-19 YMPO UPWP. Supervisor Martin Porchas seconded, and the consent agenda was unanimously approved.

8. Tentative Schedules for Calendar Year 2019 Executive Board and Technical Advisory Committee Meetings.

Melissa Ramos, YMPO Assistant Planner introduced the tentative schedule of Committee Meetings for the calendar year 2019. She mentioned the schedule mostly mirrors last years. MOTION: Supervisor Porchas moved to approve the Tentative Schedules for Calendar Year 2019 Executive Board and Technical Advisor Committee Meetings. Mayor Knight seconded, and the schedules were unanimously approved.

9. FY 2018 YMPO Audit Schedule

Ms. Figueroa reported on the current FY 2018 YMPO Audit Schedule. She reviewed three findings from the FY 2017 YMPO Audit and informed the Board of the steps taken to correct the findings. Ms. Figueroa informed the members that, in prior years, Lumbard and Associates prepared YMPO financial reports. However, recently, the Pun Group had acquired Lumbard and Associates and, with YMPO staff's agreement, would continue carrying out services under the existing contract. She mentioned that the FY 2018 Audit is on schedule and should be completed by our Auditors, Walker and Armstrong, by the end of February 2019.

Mr. Ward mentioned that YMPO is approaching the end of the fourth year with both companies and therefore will be putting out a request for qualifications for selecting new companies. He mentioned that whether the same companies remain the preferred ones, a need to establish updated contracts is necessary.

10. Regional Transit Asset Management Plan

Charles Gutierrez, YMPO Senior Planning/ Mobility Manager, informed the Board that during the last October and November meetings, the YMPO TAC and Executive Board officially adopted the new Transportation Performance Measures (TPM) in alignment with ADOT. He mentioned that the Yuma County Intergovernmental Public Transportation Authority (YCIPTA) is the cognizant agency for public transit in the region. Mr. Gutierrez presented YCIPTA's regionally submitted Transit Asset Management Plan (TAMP) for YMPO approval and forwarding to ADOT and federal agencies as required by the TPM process.

MOTION: Deputy Mayor Knight moved to approve the Yuma regional TAMP for forwarding to ADOT and federal agencies. Supervisor Porchas seconded, and the consent agenda was unanimously approved.

11. Resolution in Support of Renaming State Route 195

Mr. Ward presented on the pending initiative of re-naming State Route 195 after Robert A. Vaughan. Previously, in May 2012, the YMPO Board adopted Resolution 128, supporting the renaming of State Route 195. SR-195, also known as the Area Service Highway (ASH), is to be called the Robert A. Vaughan Expressway (RAVE), after the first Executive Director of YMPO (1983 to 1999). However, the rules of the Arizona State Board on Geographical and Historic Names require a delay of five years following the demise of an honoree. That time has expired and the Historic Names Board is expected to meet in April of 2019 to consider this action.

Mr. Ward recommended the Board review the provided existing Resolution and might decide to support renaming the roadway with their updated signatures. He affirmed to bring back the item with an updated resolution in support of this renaming. The Chairwoman deferred this item for action to a future meeting.

12. Executive Director's Evaluation

Mr. Ward briefly reviewed last year's evaluation process and mentioned that during the process, some members suggested that the criteria used in the evaluation form were not particularly appropriate for the Director-level position. Since then, Mr. Ward mentioned that he had discovered an old set of YMPO Policies and Procedures which included a process for evaluating the Executive Director. These procedures outline a subcommittee that included the YMPO Chairperson who selects two Board members from different jurisdictions to evaluate and report back to the Board. Mr. Ward asked members what their preference was for carrying out his evaluation, the same as last year or a subcommittee, or another option ?

The Chairwoman recommended a subcommittee and said she would select Board members who have regularly attended meetings and could properly evaluate the Director's performance. Mr. Ward clarified that the reason the subcommittee is composed of three different jurisdictions instead of four, is to avoid a quorum. The Chairwoman agreed to contact Mr. Ward and set up a subcommittee meeting for his evaluation and to report back to the Board at the next meeting.

YMPO INFORMATION SUMMARY for Agenda Item #7

YMPO Representatives and Subcommittee Members for 2019.

DATE: January 24, 2019.

SUBJECT: YMPO Officers Representatives and Subcommittee Members for CY 2019

SUMMARY: The Arizona State Transportation Board (STB) comprises appointed officials from six districts around the State. These officials serve six-year terms, are initially appointed by the Governor and are confirmed by the State Senate and hold approximately 12-15 meetings throughout the State, including three study sessions. District 6 comprises La Paz, Mohave, Yavapai and Yuma Counties. and the current STB District 6 member is City of Yuma Deputy Mayor Gary Knight. However, in addition to this official post, YMPO customarily identifies a representative, and an alternate, who have expressed an interest in attending some of the STB meetings to specifically lobby the STB on behalf of the Yuma region's needs, *in addition to* Gary Knight.

YMPO is also a full member of the Rural Transportation Advisory Council (RTAC) and has an official representative, and an alternate.

In addition to STB and RTAC members, YMPO often elects members to serve on two YMPO Subcommittees, to oversee the Audit and any changes to By-Laws. The Audit Subcommittee comprises the YMPO Secretary/Treasurer and two other members elected at large. Members for the By-Laws subcommittee are usually only selected when, and if, a need to change the YMPO By-Laws arises.

PUBLIC INPUT:

No public comments have made on this subject to date.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: The process for the Subcommittee is referred to in the YMPO By-Laws.

POLICY: Under the current By-Laws the newly elected Secretary-Treasurer becomes the Chair of the Audit Subcommittee.

ACTION NEEDED:

Possible action to appoint/elect representatives for the STB, the RTAC and the YMPO Audit Subcommittee and the By-Laws Subcommittee.

PRIOR BOARD/COMMITTEE ACTIONS:

Currently, Chairwoman McCollough was selected as the YMPO primary representative for attending STB meetings and Vice-Mayor Ramos was the alternate. Vice Mayor Ramos was selected as the RTAC primary member and Chairwoman McCollough as the alternate. The Audit subcommittee members are Secretary/Treasurer Begay as Chairman and Supervisor Pancrazi and Councilmember Watts as members. No action by the By-Laws subcommittee was anticipated, so no members of the By-Laws subcommittee were identified.

YMPO INFORMATION SUMMARY for Agenda Item #8

“Accelerate Arizona” Proposal for a Transportation/Tax Increase.

DATE: January 24, 2019.

SUBJECT: Accelerate Arizona Transportation Tax Increases

SUMMARY: On January 11, 2019, as part of the briefing sessions held in support of the forthcoming 2019 Arizona State Legislature session, the Arizona Chamber of Commerce sponsored an “Accelerate Arizona” Transportation Forum at the Biltmore Hotel and Conference Center. During this forum, several transportation speakers, including more than seven current and legislator-elects, gave their opinions of what is need in the State with regard to supporting transportation. The Chairman of the State House Transportation Committee, Representative Noel Campbell, released some proposed legislation for consideration during the coming legislative session. A copy of the proposed bill is included.

This bill would substantially increase transportation funding by means of increasing gasoline and use fuel (diesel) taxes and by increasing registration fees for electric and alternative fueled vehicles. As an agency that supports and, wherever appropriate, directs the use of transportation funds, the YMPO should support this proposed increase.

On Monday, January 28, 2019, Chairwoman McCollough, Vice Mayor Ramos, Supervisor Pancrazi, Deputy Mayor Knight and Mr. Ward will attend the Rural Transportation Advisory Council (RTAC) meeting in Phoenix. This particular meeting includes the annual Lunch with Legislators. It is anticipated that more information will be gathered during this meeting and an additional Summary, including the proposed Resolution, will be distributed to member by the middle of next week.

PUBLIC INPUT:

No public comments have been made on this subject to date.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: Passage of this legislation would have a huge effect on transportation, especially the ability to maintain existing facilities as well as to construct new facilities. The funding would be gathered through the current Highway User Revenue Funds (HURF) process. This means that approximately half is distributed to Counties, Cities and Towns and half goes to ADOT for the State Highway Fund. As a result, YMPO member agencies will see a substantial increase directly in the form of HURF funds. How much of an increase in the share of the State Highway Funds, remains to be seen?

POLICY: YMPO does not have any policies regarding the establishment of a regional pot of funds. As a result, the major decisions are not made at the regional level, but directly by the member agencies. The only priority that YMPO has for the possible use of regional

funds, is to widen US-95 (aka State Route 95) between Araby Road and Aberdeen Road to four lanes; and to upgrade the remainder of US-95 within Yuma County to an, initially, an all-weather surface but, ultimately, to four lanes from Yuma to Quartzsite.

ACTION NEEDED:

Possible action to adopt a Resolution supporting the proposed tax and registration increases as proposed by Chairman (Representative) Campbell.

PRIOR BOARD/COMMITTEE ACTIONS:

No prior committee actions regarding this proposed increase in transportation funds has occurred.

YMPO INFORMATION SUMMARY for Agenda Item #9

Possible Policy on a Yuma County Air Quality Emissions Bank

DATE: January 24, 2019

SUBJECT: Possible Air Quality Policy for Paving of Unpaved Roads

SUMMARY:

Yuma County, the lead agency for air quality planning in the Yuma County region has been working with the Arizona Department of Environmental Quality (ADEQ) on a possible Air Quality Emissions Bank for the Yuma County region. The Emissions Bank will allow the region to claim PM-10 Emission Reduction Credits for paving unpaved roads. ADEQ currently has legislation in place for the Maricopa County region (MAG) to use such a technique.

Paul Melcher, the Yuma County Economic Development and Intergovernmental Affairs Director, has been working with Steve Burr, Principal Environmental Scientist/Specialist in the AQIPS Section, Air Quality Division of ADEQ on this matter. The main effort is to make changes to the existing language in the Arizona Emissions Bank rules that would allow the Yuma region to take advantage of the existing law, without negatively affecting the MAG region.

Yuma County is asking YMPO support for this approach and the possible action is to authorize Paul Ward, Executive Director, to work with Mr. Melcher to identify the desired changes in the legislation to allow the region to start 'banking' air quality credits for the paving of dirt roads that is already occurring. We anticipate coming back to the Board for further action in due course.

PUBLIC INPUT:

There have been no public comments on this process to date.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: The Emissions Bank legislation is only being used in the MAG region at this time. However, the understanding is that any opportunity to establish credits for the Yuma region is likely to benefit air quality planning efforts in our region in the future.

POLICY: YMPO is required to perform air quality conformity analyses on our transportation plans and programs but there is no wording with regard to an Emissions Bank in the current analyses.

ACTION NEEDED:

This item is on the agenda for information, discussion, and possible action to authorize the Paul Ward, the YMPO Executive Director to work with Paul Melcher, the Yuma County Director of Economic Development and Intergovernmental Relations, to review options for establishing an Emissions Bank for the Yuma County region.

PRIOR BOARD/COMMITTEE ACTIONS: None, to date.

YMPO INFORMATION SUMMARY for Agenda Item #10

FY 2020-2024 YMPO TIP

DATE: January 26, 2019 January 24, 2019

SUBJECT: The FY 2020-2024 YMPO Transportation Improvement Program (TIP)

SUMMARY:

Under Federal Guidelines, the YMPO is required to develop a TIP every four years. The TIP has to include all projects funded with Title 23 Federal funds and any transportation projects that might affect air quality, regardless of funding source. YMPO staff recommends that the TIP should be developed for a total of five years, on a two-yearly cycle. This process will allow member agencies to be as up-to-date as needed with their federally funded projects and will minimize the number of TIP Amendments and Administrative Adjustments needed.

The proposed, tentative schedule is as follows:

- January 2019: Call for Projects;
- February 4, 2019: Re-balancing of current TIP & submission of New TIP projects to YMPO – Mini DCRs, other pertinent data;
- February 14, 2019: TAC Meeting to recommend project(s) for TIP project presentations, if needed;
- March 2019: Initial approval and start of 30-day public comment period;
- April/May 2019: Submission to YMPO Executive Board for Approval;
- May/June 2019: Submission of TIP to ADOT.

Projects to be included in the TIP included those already in the previous TIP, any new projects that are being considered for funding with ADOT and/or YMPO Federal funds (including transit projects) and any State, locally or privately funded projects that add through-lane capacity to roads that are included in the regional modelling network, regardless of funding source. This model network is the transportation network that has been developed to carry out an air quality regional emissions analysis for the two pollutants that the region is currently in nonattainment status for - Particulate Matter of less than 10 microns (PM-10) and Ozone.

Following approval of the TIP, the TIP document is sent to ADOT for the Governor's (or the Governor's designee's) Approval and eventual inclusion in the State TIP (STIP). When this occurs, the implementation of TIP projects may start.

PUBLIC INPUT:

There have been no public comments on this process, to date.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: YMPO member agencies will be submitting possible federally funded projects for consideration through the Technical Advisory Committee process. Depending on the projects submitted for consideration, an Amendment to the Regional Transportation Plan might be necessary and/or an air quality conformity analysis might be needed.

POLICY: The TIP is developed under requirements contained in the FAST Act § 1109; 23 U.S.C. 133. There are several other guidelines that are followed during the TIP Development process.

ACTION NEEDED:

This item is on the agenda for information and discussion.

YMPO INFORMATION SUMMARY for Agenda Item 11

YMPO Executive Director's Annual Evaluation

DATE: January 24, 2019

SUBJECT: Executive Director's Annual Evaluation

SUMMARY:

Last year, during the meeting in December 2017, the Board reviewed a self-evaluation of Mr. Ward's performance and delivered their evaluation at the January, 2018 meeting. This year, during the Board meeting on December 13, 2018, members expressed a preference for the Subcommittee option. The Chairwoman duly appointed two members of the Executive Board and, on January 14, 2019, she met with Deputy Mayor Gary Knight, Supervisor Martin Porchas and Mr. Ward and completed their evaluation of his performance during calendar year 2018.

A copy of the updated evaluation will be distributed to all members of the Board for their review and comment during the Executive Session. The Chairwoman and members of the Evaluation Subcommittee will be encouraged to provide their opinions of the Director's evaluation and to answer questions from members. Members will also have the opportunity to ask Mr. Ward's direct questions, if they so desire. Mr. Ward has not requested that his evaluation be heard during Executive Session, but the actual review of Mr. Ward's performance and any questions will most likely occur during Executive Session, as members are freer to provide both positive and/or possibly critical comments during a closed session.

Finally, members will also be requested to discuss any adjustments to the salary and/or benefits package as they see fit.
